## A Message from the Workday Sponsors

Dear University of Miami Faculty and Staff,

We are pleased to announce that we are on track for the September 1 implementation of [Workday Finance](#). On Wednesday, July 26, the Enterprise Resource Planning (ERP) Executive Steering Committee (ESC) reviewed the ERP team's progress, and are confident we will be live on September 1. Click [here](#) to see a summary of some of the changes that may impact you or your department.

Training is available for those impacted by the new functionality and is based on security roles that have been assigned with the assistance of the University's Cost Center Managers. Additional Drop-In labs to practice business processes learned in training will be made available the week before and the week after September 1 in support of go-live activities. These training sessions are designed to support specific Workday Finance roles. Check with your manager or Cost Center Manager if you are if you are unsure of your role.

If you have any questions, please email the Workday Finance project team at: [workdayfinance@miami.edu](mailto:workdayfinance@miami.edu).

We appreciate your support, and look forward to a smooth transition.

Sincerely,

**Steve Cawley**  
Vice President for  
Information Technology  
and CIO

**Gabriel Eszterhas**  
Associate Vice President  
and Controller

**Nerissa E. Morris**  
Vice President for  
Human Resources
