Important Project Changes

April 4, 2017

On April 3, the Workday Finance Team released the Workday Finance Implementation (WFI) project change. This project change is an implementation of the new project timeline for the Workday Finance implementation. The new project timeline will take place past June 1, 2017. This change is expected to have a positive impact on the project.

Suppliers Management

Supplier Management

Supplier Management is a new role that will be used after June 1 until the new go-live date. This role will be used for suppliers with expired or near-term expiring insurance. This change is expected to have a positive impact on the project.

Changes to Workday:

-Staff, and Graduate Students will be cancelled during this time. Please ensure these processes are fully approved before this time.
-Workday will advise when these business processes will be available for use.
-Chain Services, and the Office of Research and Recovery Services (RRS) will all continue to work normally. The additional time will allow for providing confidence for the success of the Workday Finance implementation.
-All Activity, including project Change Edits, will be used after June 1 until the new go-live date.
