Meet the Team

Theresa Ashman
Finance User Network Manager

Theresa Ashman is responsible for the Finance User Network (FUN). She has been a part of the FUN team for the past two years and loves to help others get the most out of Workday, their own roles, and their departments. She enjoys sharing knowledge and tips with the FUN members to make everyone happy and work more efficiently.

Diana Arnal
ERP (Enterprise Resource Planning) Developer

Diana Arnal is an Enterprise Resource Planning (ERP) Developer with the Integrations team. She is responsible for automating complex workflows using Workday Workspaces. Diana also ensures that the Workday Finance security roles are aligned with the financial processes and systems across the University. She has worked with many departments to deploy the Workday system, and she is excited to continue her work towards an ERP system across the University.

Ayushi Argwala
Finance User Network (FUN) Manager

Ayushi Argwala was born and raised in Texas. She relocated to Miami, Florida with her family when she was eleven. The transition left her with a unique accent influenced by Cuban parents and her own identity. She was raised in Bronx, New York until she relocated to Miami, Florida with her family when she was eleven. The transition left her with a unique accent influenced by Cuban parents and her own identity.

Ayushi wants to expand her expertise beyond PB&J and tacos. She is a phenomenal writer with unique stories. Ayushi is a huge fan of John Grisham. She recommends any John Grisham novel. Her review can be found online.

Ayushi's music preference is country and hip-hop. Her favorite artist is Taylor Swift. Her favorite color is red. She loves running and spending time with her husband, Will, and their two rescued dogs, Jessie and Jia. Will and Diana watch Netflix when they are not at work.

Ayushi has a Master's Degree in Management Information Systems from the University of Florida and her Bachelor's Degree in Computer Science from the University of Miami. She remained in Texas to earn her Bachelor's Degree in Computer Science.

Ayushi is a dedicated professional with a strong passion for finance. She is always looking for ways to improve the Workday system and ensure that the users are happy. She is excited to continue her work with the FUN team and help others get the most out of the Workday system.
