Workday New Release - Coming March 9

On March 9, new Workday features and functionalities will be available. Below, we break down the highlights:

### Highlights:

1. **Mobile Authentication**
   - Mobile Authentication has been updated so that a simple PIN or facial recognition login option, can be used as a prerequisite for fingerprint authentication, instead of just mobile PIN authentication.
   - **Improvements:**
     - This enhances security and convenience for users.

2. **New Job Requisition Workspace**
   - A new Job Requisition Workspace will be available, enabling recruiters to get a simple overview of job requisitions and status.
   - **Improvements:**
     - A new parsing functionality will be available, making it easier to create prospects and job requisitions.

3. **Expense Report User Interface Update**
   - The expense report user interface has been updated to improve usability and efficiency.
   - **Improvements:**
     - The interface is now more user-friendly and intuitive.

4. **Worktag Functionality**
   - The Worktag functionality has been updated to include new features.
   - **Improvements:**
     - This enhances tracking and visibility of various business processes.

### Other Improvements:

- **Procurement and Accruals:**
  - Accounts Payable Invoice Credits will now be automatically reclassified to Accounts Payable, enabling faster and more accurate processing.
  - **Improvements:**
    - This streamlines the procurement and accruals workflow.

- **HR and Payroll:**
  - Multi-Company Purchase Orders (Change Orders)
    - These orders will now have enhanced tracking capabilities.
    - **Improvements:**
      - Better visibility and tracking of multiple company transactions.

- **Financial Management:**
  - Multi-Company Requisitions and Deposit Specialist
    - The requisition and deposit processes have been improved for efficiency.
    - **Improvements:**
      - Streamlined requisition and deposit workflow.

- **System Changes:**
